TO PUT DEMOCRATS IN A HOLE

PLAN SOME FRIENDS OF TAFT'S ADMINISTRATION PROPOSE.

They Think Taft Could Forestall the Demcerats on Tariff Revision by Calling an Extra Session and Putting the Proposition Squarely Up to Them.

WASHINGTON, Nov. 17.- As members of Congress continue to return for the coming session it becomes more apparent that the tariff is the subject about which the political fortunes of the two parties are to revolve in the next two years. Presiden Taft's advisers already have their heads together and are trying to work out a plan of procedure for the President's consideration as soon as he returns from his trip to Panama. One of the chief purposes of this plan naturally. will be to put the Democrats in a hole and rehabilitate the Taft Administration with a view to the 1912 campaign

Some of the President's friends will urge him to put the tariff issue squarely up to the Democrats by calling an extrasession of Congress immediately after the expiration of the present Congress on March t next. Republicans who give the President this advice believe that by calling an extra session he could promptly put up to the Democrats a proposition which they are bound to consider on their own initiative within a year. By following this course some of Mr Taft's friends believe he would be able, partially at least, to forestall the Democrats on the tariff revision proposition

The President's friends point out further that he could consistently follow. such a course, masmuch as he has already admitted that some of the schedules of the Payne-Aldrich iaw need revision and has had his Tariff Board at work for several mon his coile ting data to be used as a basis for future revisions. By March 4 next this Tariff Board will be able to report on the most important schedules of the Payne-Aidrich bill, and the President would be able to use this data as the basis of a recommendation for piecemeal revision. The Tariff Beard's work thus far has not been confined to any particular schelules but they are weil advanced in their investigations of the wood, cotton, pulp and print paper and othe, schedules

who are inclined to favor this line of action are proceeding on the assumption that the Democratic party assumption that the Democratic party never will be able to make good on an attempt to revise the tariff. They are accordingly in favor of the President putting the responsibility up to them at the earliest possible moment and calling their bluff. If the Democrats fail, the country, so some of the President dent's advisers believe, will be quick to condemn them and to recognize Mr. Taft's own sincerity in the matter of

progressives of his party, and also would be an acknowledgment that the defeat in the recent elections was partly due

ow that they will not work with the resident's tariff board. One of the

There is a possibility that when the Democrats are firmly in the suidle he hands of the President a tariff board will be tied allowether by a refusal on the part of the Democrats to appropriate money for the arrying on if the rate of board's investigation. That, however, cannot happen until 1912, as the present Republican House will provide for the board received an appropriation last year of \$100,000, and there was some doubt, even with a Republican House.

It would be very easy for the leaders and the United States have agreed in personally and the United States have agreed in personal to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in principle to the measures to aid the Libration in the forther will be about \$1,500,000 will be floated. It has not yet been settled whether it will be taken jointly by the sankers of the French Line went to the Prinz Friedrich Wilhelm and looked over her wounds. The mail of the German ship was transferred to the Lorraine and will be sent to Bremen from Havre by small, so it is probable that the latter course will be adopted.

The three foreign Governments are more interested, it is said, in protecting the probable that they are political rights in Africa than they are the received aboard the United States have agreed in principle to the measures to aid the Libration in the United States have agreed in principle to the measures to aid the Libration in the Capt Prehn, who inspected the damage she had sustained Meanwhile, Supt Mannes of the French Line went to the measures of the Libration in the forther with the principle to the measures to aid the Libration in the forther with the latter of the measures to aid the Libration in the forther with the latter of the measures of the Libration in the f

The board received an appropriation wall so it is probable that the latter doubt, even with a Republicans would be very easy for the leaders of either party to bring about conditions that would demand a special session regardless of the tariff. A little delay on one of the big appropriation bills by the Republicans would do the trick and a mild fillouster on the part of the Demogratis would accomplish the same purpose. The revised lules permit of so, much general and individual legislative business being undertaken to the except that Complaint.

Washington, No 17—Herry M Hoyt, so which a special party which have days a available for this purpose. Even Readington of appropriation measures on certain days that only about three days a variance for the purpose. Even Readington of appropriation measures on certain days that only about three days a variance for the purpose. Even Readington of appropriation measures on the existing for this purpose. on revision being made on the basis of the difference in the cost of production here and abroad. In other words the insurgents who have combated the Payne-Aldrich tariff bill are still protectionists, but they demand more reasonable differences that they demand more reasonable differentials that are still protectionists.

Aldrich tariff bill

A determined stand on the part of the insurgents in the Senate, with that body Republican by a majority of ten, will block any Democratic revision on a tariff for revenue only basis. The news that the insurgents will not stand for a simon pure Democratic tariff has encouraged friends of the Taft Administration in the belief that the Democratic effort to tinker the tariff will quickly fizzle.
